- Good competence in internal and external communications
- Competency in the use of computers and basic software packages, including Microsoft Teams, ZIMS software, in order to maintain accurate records

**Although not essential, the following would be desirable:**

- Experience of working in field conservation and conducting research projects
- Experience in conducting and publishing scientific research

**More About Us**

We're not just an amazing, award-winning visitor attraction that's home to 20,000 incredible animals. We're not just the UK's most popular zoo. We're a major wildlife charity that's committed to the recovery of endangered species, globally. And, as the world faces an extinction crisis, we're making a hugely significant contribution to conservation at a time when it's needed most. We are Chester Zoo and we prevent extinction.

**The closing date for applications is .....**

**What makes Chester Zoo a great place to work?**

As the UK's biggest and best zoo, we have ambitious goals, exciting plans, and there's always lots going on here. We're an inclusive and diverse organisation, made up of nearly 500 permanent and 500 seasonal team members, and we know how important it is to invest in our colleagues to help boost their career development.
