Species: _____

ID: Transponder/GAN _____

Health declaration

The material is derived from animals not infected with or suspected to be infected with diseases listed in Article 5 including Appendix II of EU Regulation 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law').

The material is derived from premises not placed within restriction zones for reportable animal diseases to which the species is susceptible.

Material: Whole blood Serum Tissue Hair

Other (describe) _____

Amount of material: _____

Biological sample category: 1

Packaging:

Enclose all primary sample containers (tubes, bags, etc.) together inside a secondary leak-proof zip lock bag or other leak-proof container. Protect glass tubes from contact with each other and pack them so they do not jostle in transit. Enclose enough absorbent material (batting, paper toweling or similar) inside the secondary bag or container to fully absorb the total volume of all liquid samples should a catastrophic spill occur in transit. Use padding to prevent movement of contents. Label the outer tertiary packaging (e.g. cardboard box, padded envelope etc) per the carrier's requirements.

Shipping:

Send to: Copenhagen Zoo
Research and Conservation
Roskildevej 38
2000 Frederiksberg
Denmark

The package should be labeled on the outside with the diamond 'UN3373' logo and the text "Exempt animal specimen". **Shipments without this document will be rejected due to the requirements of the Animal Health Law.**
