

PROGRAMME EUROPEAN ZOO NUTRITION CONFERENCE 2025

Apenheul 2025	
24/Jan	First Conference Day: Friday
08:00	Registration
08:30	Welcome 1 (Apenheul - Roel Welsing)
08:45	Welcome 2 (ENG - Lauren Samet)
09:00	Fens: "Yes, we (still) have no bananas": An update on 10 years dietary management in Apenheul Primate Park
09:30	Paz: Doing it by the book: bridging the gap between theory and practice in the implementation of the Jerusalem zoo's new nutrition book
10:00	Janssens: Why humans feed low fibre diets
10:20	Break
10:50	Van Mulders: An overview of nutritional factors in the aetiopathogenesis of myocardial fibrosis in great apes
11:10	Beltran: Exploring the gut microbiome of the cotton-top tamarin (Saguinus oedipus) in a low-fruit-feeding model
11:30	Depauw: Supportive feeding in aging great apes: yes or no?
11:50	Zoelzer: The impact of fruit-free feeding on the behavior and microbiome of Mandrillus leucophaeus
12:10	Giraud: Improving nutrition, one species at a time: implementing a large-scale nutrition plan at ZooParc de Beauval and changing the way food is perceived
12:40	Poster pitches I: Bikart, Schweikhard, Scott, Depauw (2)

12:45	Lunch break
13:45	Sponsor pitches I (incl. Mazuri: gut loading, Kaspar Faunafood, St Laurent)
14:15	Bissel: (invited plenary) Whale nutrition
15:15	Break
15:45	Hunt: Preliminary research into common octopus (Octopus vulgaris) diets
16:05	Lamberigts: (invited plenary) Back to basics - bird nutrition
16:45	Poster pitches II: Gaik, Janssens, Quintanilla, Tello, Vaillard, Scala
17:00	Pritchard Moore: Finding balance: The rise of zoo animal nutrition, from zoo cake to the nutritional turn
17:25	Conclusion
18:00	ENG Working Group Meeting
25/Jan	Second Conference Day: Saturday
Zoo visit	
08:15	Registration
08:30	Welcome & Zoo visit organisation
08:45	Leaving for zoo visit (guided tours)
09:00-	Zoo visit (guided tour including visit zoo stations and break)
11:30	
12:00	Lunch break
13:00	Sponsor pitches II (incl. Mazuri bears, Ny Vraa)
13:15	Jonkers: Enhancing behavioural diversity and activity budgets in zoo-housed African lions (<i>Panthera leo leo</i>) through a modified feeding method
13:30	Seyrling: Breaking the spell: Changes in the behavior of two zoo-kept tigers (<i>Panthera tigris</i>) after exposure to a distinct feast-and-fast feeding regime
13:45	Brunner: Feasts and fasts: unraveling the impact of feeding regimes on the activity budgets of captive jaguars (Panthera onca)
14:00	Mielec: Feeders imitating burrows as an enrichment for the rusty-spotted cat (Prionailurus rubiginosus)
14:15	Penninga: From fruit to vegetables: diet change of the spectacled bear (Tremarctor ornatus)
14:30	Samet: Current practices in dietary management and disease incidence in red pandas (Ailurus fulgens) across European Zoos

44.6-	
14:45	Poster pitches III: Bensalem, De Cuyper, Sun, Zhang, Duque-Correa
14:55	Break
15:25	Sponsor pitches III (incl. Kiezebrink giraffe, Granovit sloth, Plexx)
15:45	BrenesSoto: Insights regarding protein and amino acid utilisation in frogs
16:05	Walldén: A case of sand eating behavior in Grevy Zebras Equus grevyi at Kolmården Wildlife Park
16:20	Viallard: Optimizing nutritional strategies for captive white rhinos (Ceratotherium simum): addressing hoof health and training rewards
16:35	Sauspeter: Feeding management of African rhinos (Ceratotherium simum, Diceros bicornis) in European zoos
16:55	Poster Pitches IV: Bissel, Böswald, Kheradmand, Krajda, Stec, Wallden, Martin, Clauss
17:05	Huisman: The history of ENG
17:40	Conclusion
19:00	Conference Dinner @ Citylounge
26/Jan	Third Conference Day: Sunday
08:00	Registration
08:30	
06.50	Van Soest: (invited plenary) New insights in feed quality by using novel carbohydrate and fibre profiling methods
09:00	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept
09:00	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals
	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept
09:00	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals
09:00 09:20	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals Ferguson: Food for thought and for species conservation
09:00 09:20 09:40	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals Ferguson: Food for thought and for species conservation Przybylo: (invited plenary) Zoo nutrition in Eastern Europe
09:00 09:20 09:40 10:10	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals Ferguson: Food for thought and for species conservation Przybylo: (invited plenary) Zoo nutrition in Eastern Europe Break
09:00 09:20 09:40 10:10 10:40	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals Ferguson: Food for thought and for species conservation Przybylo: (invited plenary) Zoo nutrition in Eastern Europe Break Clauss: Vitamin D in a comparative context: try to measure both ergocalciferol (D2) and cholecalciferol (D3) metabolites Bruins-van Sonsbeek: Serum 25(OH)D analysis in captive pachyderms (Loxodonta africana, Elephas maximus, Diceros bicornis, Rhinoceros
09:00 09:20 09:40 10:10 10:40 10:55	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals Ferguson: Food for thought and for species conservation Przybylo: (invited plenary) Zoo nutrition in Eastern Europe Break Clauss: Vitamin D in a comparative context: try to measure both ergocalciferol (D2) and cholecalciferol (D3) metabolites Bruins-van Sonsbeek: Serum 25(OH)D analysis in captive pachyderms (Loxodonta africana, Elephas maximus, Diceros bicornis, Rhinoceros unicornis, Tapirus indicus) in Europe
09:00 09:20 09:40 10:10 10:40 10:55	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals Ferguson: Food for thought and for species conservation Przybylo: (invited plenary) Zoo nutrition in Eastern Europe Break Clauss: Vitamin D in a comparative context: try to measure both ergocalciferol (D2) and cholecalciferol (D3) metabolites Bruins-van Sonsbeek: Serum 25(OH)D analysis in captive pachyderms (Loxodonta africana, Elephas maximus, Diceros bicornis, Rhinoceros unicornis, Tapirus indicus) in Europe Liesegang: Data on calcium, phosphorus and magnesium homeostasis in rabbits under a reduced vitamin D diet
09:00 09:20 09:40 10:10 10:40 10:55 11:10 11:25	Debeuf: Contributing to biodiversity protection in the local environment by using invasive species in daily diets of different zoo kept animals Ferguson: Food for thought and for species conservation Przybylo: (invited plenary) Zoo nutrition in Eastern Europe Break Clauss: Vitamin D in a comparative context: try to measure both ergocalciferol (D2) and cholecalciferol (D3) metabolites Bruins-van Sonsbeek: Serum 25(OH)D analysis in captive pachyderms (Loxodonta africana, Elephas maximus, Diceros bicornis, Rhinoceros unicornis, Tapirus indicus) in Europe Liesegang: Data on calcium, phosphorus and magnesium homeostasis in rabbits under a reduced vitamin D diet Janssens: Minimally invasive techniques to measure vitamin D status in primates

12:10	Poster award
12:20	Conclusion: Geert Janssen's traditional wrap-up
13:00	Leave for optional visit to Amersford Zoo (incl. bus lunch)
Posters	
Group 1	Bikart: A fruit-free diet: implementation of a dietary transition and study of the effects of a new diet on three primate species at the Parc Animalier d'Auvergne, siamangs (Symphalangus syndactylus), peruvian saimiris (Saimiri boliviensis peruviensis) and crowned lemurs (Eulemur coronatus)
	Schweikhard: From Leaves to Microbes: How Diet and Season Shape the faecal Microbiome of captive Coquerel's Sifakas
	Scott: Seasonal effects on the gut microbiome of a captive group of Western Lowland Gorillas,
	Gorilla gorilla gorilla at Bristol Zoological Society Depauw: Seasonal impact of native vegetation in outdoor enclosure on bonobo welfare
	Depauw: Supporting Sanctuaries: The impact of an imperfect yet improved diet on chimpanzee welfare
Group 2	Gaik: When feeding enrichment does not enrich – the case of red-fronted macaws (Ara rubrogenys)
	Janssens: Diet preferences of wild flamingo species in Bolivia
	Quintanilla: Enhancing welfare in a mixed exhibit: The impact of dispersed whole food on activity levels and feeding behaviours of Mexican military macaws and red-billed curassows
	Tello: Development of a hand-rearing formula for American Flamingos (<i>Phoenicopterus ruber</i>) at La Aurora Zoo
	Viallard: Best Practice Guidelines for feeding white-winged wood ducks in captivity
	Scala: Observations of killer whales (<i>Orcinus orca</i>) under managed care at Marineland Côte d'Azur, France, suggest a photoperiodic control of seasonally varying intake and body mass
Group 3	Bensalem: Assessing the impact of meal frequency on the feeding behavior of captive Asian small-clawed otters (<i>Aonyx cinereus</i>), meerkats (<i>Suricata suricatta</i>), and mink (<i>Mustela lutreola</i>): preliminary findings
	De Cuyper: Berry-binging in Scandinavian brown bears: protein intake considerations based on literature
	Sun: Effects of feeding behaviour and carcass type on faecal characteristics of captive Asiatic lion (Panthera leo persica)

	Zhang: Mineral bio-accessibility in captive Asiatic lion (Panthera leo persica) fed different diets
	Duque-Correa: Maned wolf digestive anatomy and natural diet
Group 4	Bissel: Compound feeds in white rhino
	Böswald: Calcium and phosphorus levels in the gastrointestinal content of rabbits
	Kheradmand: Feeding behavior and welfare of Kordofan giraffes at Zoo Planckendael
	Krajda: The effect of decreasing sugar and starch in the diet on the diurnal activity of Linnaeus's two-toed sloth (Choloepus didactylus)
	Stec: The effect of essential oils scents on the activity, feeding and stereotypic behaviour of South American tapirs (Tapirus terrestris)
	Wallden: Kolmmarden Zoo pellets
	Martin: Giraffe body condition and diet
	Clauss: Digestion and diet composition in tapirs
